OBJECTIVE:

To leverage my diverse skills in technology, academic and research work, and visual arts in the service and benefit of the public good.

EDUCATION:

Stevens Institute of Technology, Hoboken, New Jersey, Bachelor of Science, May 2018.

Major Concentration: Science, Technology, and Society Studies

Minor Concentrations: Computer Science, Visual Arts and Technology

Senior Thesis: "Morning in Digital America: The Politics of the Personal Computer Artifact"

Sample Subjects Completed:

- Web Development & Programming, Creative Programming I & II, Software Development Process, Computers & Society, History of Science & Technology, Systems Programming, Technology & The Landscape, Game Design, Ethical Issues in Science and Technology, Virtual & Augmented Reality, Game Development For Civil Defense

North Hunterdon High School, Annandale, New Jersey, Diploma, June 2014.

EXPERIENCE:

Prophet Brand Strategy, New York, New York, Summer 2016 and Summer 2017

Web Developer Intern

Summer 2017:

- Implemented a completely new design and layout for the entire firm's website.
- Collaborated with designers and developers around the world to ensure effective implementation of code and design.
- Assisted with production efforts on testing, debugging and QA.
- Worked in both a self-led environment and as part of a larger team.

Summer 2016:

- Independently designed and built a dynamic online web application using Wordpress to rapidly generate "microsites" that enhance the firm's marketing and sales efforts.
- Presented the results to senior management and provided training/documentation to users.
- Increased staff productivity by converting a full-day, IT-led process to a self-service one that could be completed within ten minutes by users.

Voorhees High School-Technology Office, Glen Gardner, New Jersey, Summer 2014.

Technology Intern

- Implemented a new school-wide network of approximately 800 student Chromebooks.
- Upgraded software on entire existing school computer network.
- Cataloged all school hardware.

SKILLS:

HTML, CSS, Sass, PHP, Javascript, jQuery, TweenMax, Wordpress, Gulp, Java, MS Office, Unity, SteamVR, Vuforia, Cinema 4D

AWARDS:

- Dean's List-Stevens Institute of Technology – Spring 2016, Fall 2016, Spring 2017, Fall 2017
